If you **don’t** have a passport from the United States

All tour participants traveling with a **non-US passport** must check to see if a visa is needed for them to enter the countries we are visiting during tour.

Preliminary information can be obtained at [https://www.visahq.com](https://www.visahq.com).

It is the participant’s responsibility (financial and otherwise) to know and obtain the type of visa (or other travel requirements) needed for the type of travel document used.

Please contact your embassy or consulate immediately for specific information and to find out how to obtain the necessary visas.

We will need to have a copy of any additional documentation (green card, etc.) in addition to your passport no later than **April 1**.

Please be aware that PYSO will **not** be financially responsible if due to required documentation, someone needs to stay with your child abroad until the issue is resolved.

This issue **must** be resolved before we can ticket – so please attend to this immediately.

Our travel itinerary is enclosed, but if you need additional information to submit your visa application, please contact the office to request it.
